## 2.1.1 The LATAM way of writing

Our name comes from the acronym for Latin America, and acronyms are usually written in capital letters. This is why we must always write LATAM in all caps. Also, it is one more way to emphasise our brand's name in communication materials.

✓ We do

# Everything that involves our **visual universe**

LATAM's visual identity is an essential part of expressing our way of being. And most of all, a vital piece to getting through who we are.

Our visual identity is responsible for our brand's consistency. It embraces our personality and purpose, and translates them into elements visible to everyone. They include logo, colours, typography, icons, photographs, illustrations, and other graphic elements that, together, compose exactly how our audiences see us.

For more details on the elements of the visual identity, see the Master Brand Territory.

## 3.2 Our Colours

We found the colours  
of Latin America  
**And we named them**

Our palette is an extension of our Latin American soul and expression. The colours and tones chosen to compose it represent the lively, diverse, rich and multi-coloured continent we come from. It is our proposal of the LATAM we want the world to see: exquisite and full of contrast, without the stereotypes and predictable clichés.

## 3.4 Icons

# It's iconic

Icons help to ease fast communication. But that doesn't mean we put any less of our personality into our expression. This is why all of LATAM's icons are based on our logo's characteristic ascendant angle. Besides that, the round-ended lines and empty shapes guarantee a legible, elegant collection, with a delicate human touch.

This is how LATAM gives universal images and symbols a special meaning and a great deal of personality.

## 3.9.1 Graphic Elements

These are a few of the main graphic elements that compose our identity.

### Supporting Elements

---

Supporting elements help to organise and to keep our compositions balanced.

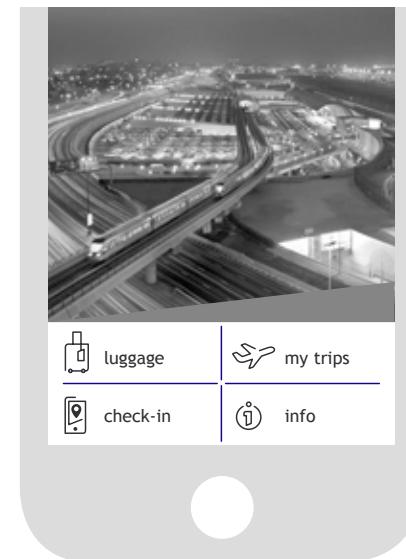

#### Angled Lines

The line follows the logo's angle and works as a support to connect images with our identity.

#### Organizational Lines

These lines help to better organize information. They remember our icon set, since they have a blank space between them.

#### Supporting Lines

The organizing horizontal lines help the layout's grid, to create a better balanced composition.

## 3.9.2 How to make

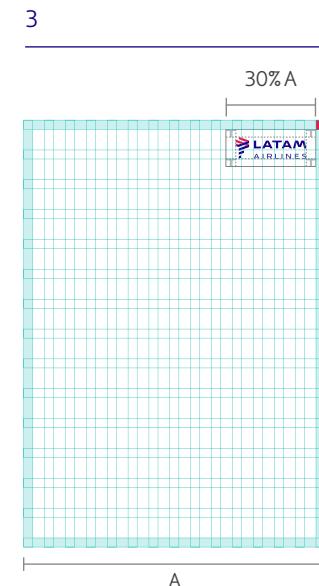

In order to create communication materials, a grid system was developed. This guarantees a brand consistency in all materials. To build the grid, follow the steps below:

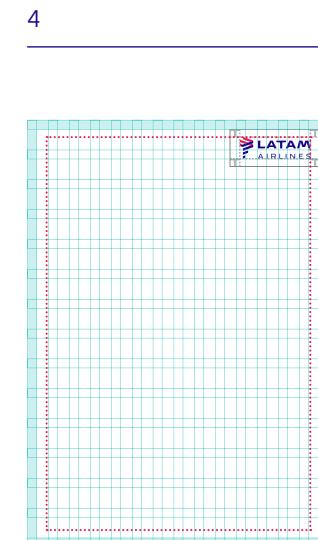

**Find the “3%”**  
Reduce to 3% the smaller side of your media, in this case, represented by the letter “A”.

**Draw the grid**  
Use the 3% to create the columns. There are 15 in total, both ways.

**Place the logo**  
The logo is always placed on the layout's top-right corner. It is 30% of the smaller side (including exclusion zone).

**Draw the margin**  
The margin is given by the logo's edge.

**Complete your layout**  
Everything else on the layout is related to the grid or to the logo.

### Application logo

The logo is preferably applied in its negative version, because we always want to highlight our brand's indigo.

We should follow the proposals shown below for each type of text, to ensure the information hierarchy in the layout.

### Title

#### Example

Trust us: you've  
never been to  
anywhere like  
**Latin America.**

### Text Descriptions

#### Example

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Curabitur sed neque lorem. In facilisis lacus et mauris congue fringilla. Fusce euismod vehicula metus, sed condimentum neque imperdiet ac.

### Additional Information

#### Example

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Curabitur sed neque lorem. In facilisis lacus et mauris congue fringilla. Fusce euismod vehicula metus, sed condimentum neque imperdiet ac.

#### Important note:

The typography used  
in the tagline is  
**LATAM Sans | Regular**

We need to be attentive to the alignment  
between tagline and LATAM logo.

In this case, the font size is flexible to  
build the tagline in different languages:

## 3.5.1 Our Box

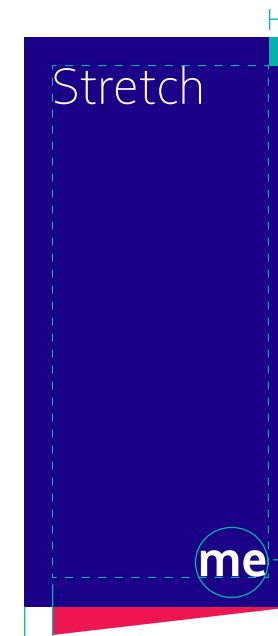

This height is 5% of the widest side of the main area

This is the primary version for our box application – indigo outside and coral inside

Our box protects information when we have a busy background. Its primary version uses the LATAM logo's colours, but they may vary according to the background.

This angle must always be ascending; a reminder of the logo's symbol

This distance should be 5% of the widest side

**Important note:**  
Remember: less is more! Don't overcrowd the boxes with information. Always leave blank spaces for more elegant layouts.

## 3.5.8 Coloured Footer Construction

Here is a chart about how our coloured footer works.

The height of the footer is calculated by the height of the media, this calculation can vary depending on the proportions.

As the piece's height increases, the percentage height of the footer decreases.

**Important note:**

The coloured footer can be applied to photos

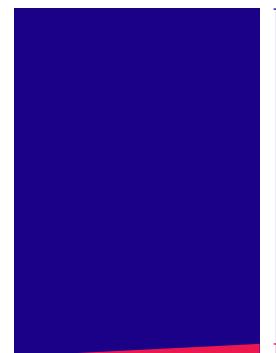

Height footer  
= **Aprox. 15%**  
of height media

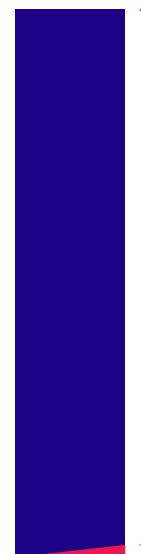

Height footer  
= **Aprox. 10%**  
of height media

Height footer  
= **5%**  
of height media

Height footer  
= **Aprox. 4%**  
of height media

Height footer  
= **Aprox. 3%**  
of height media

Horizontal Media  
H footer > 5%

Vertical Media  
H footer < 5%

## 3.5.8 Web ads - Applying logo

For digital materials the rules change according to the situation.

**LATAM logo + oneworld + Information**

**Important note:**  
The rules of proportion the logo shown here also apply to the Footer box

### Extreme horizontal

When the width is 3x and 12x greater than the height

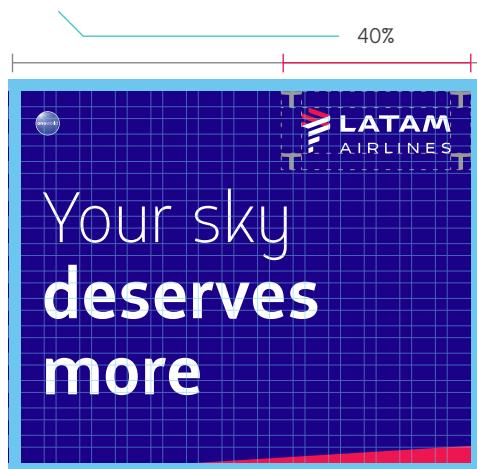

These are some rules on how to apply the LATAM logo on web ads using Full box and Footer box

### Standard

When the width is equal to or greater than the height 2x

The logo is placed on the top-right corner. It is 40% of the width (including exclusion zone).

### Extreme vertical

When the height is greater than the width 2.5x

The logo is placed vertically centered, (excluding the coloured footer). It is 65% of the height, (including exclusion zone).

To center the logo must exclude the coloured footer

### Horizontal Media

#### Example with LATAM logo

20%  
The logo is placed on the top-right corner. It is 20% of the height, (including exclusion zone).

#### Example with Logo box

35%  
The Logo box is placed on the top-right corner. It is 35% of the height, (including exclusion zone).

#### Important note:

Before applying the Logo box, we must apply the LATAM logo with 20% of the height to find the margin.

For sports communication, we use a reduced protection area, to gain more impact.

e.g.  
Football  
Stadium

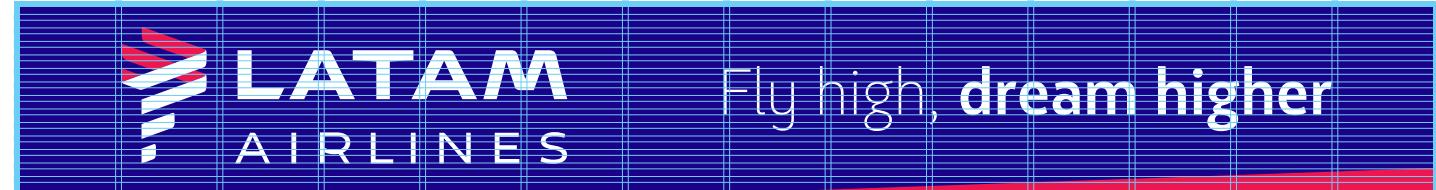

e.g.  
Volleyball  
Arena

LA  
A I F

e.g.  
Tennis

## 3.9.2 Brand transition

### How to apply

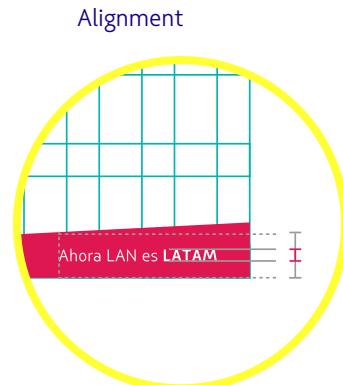

We use a coral footer to place text. As a reference ratio we use the "T" height of LATAM logo.

### Idioma

ESP: **Ahora LAN es LATAM**  
 PT: **TAM agora é LATAM**  
 ING: **LATAM is now LATAM**

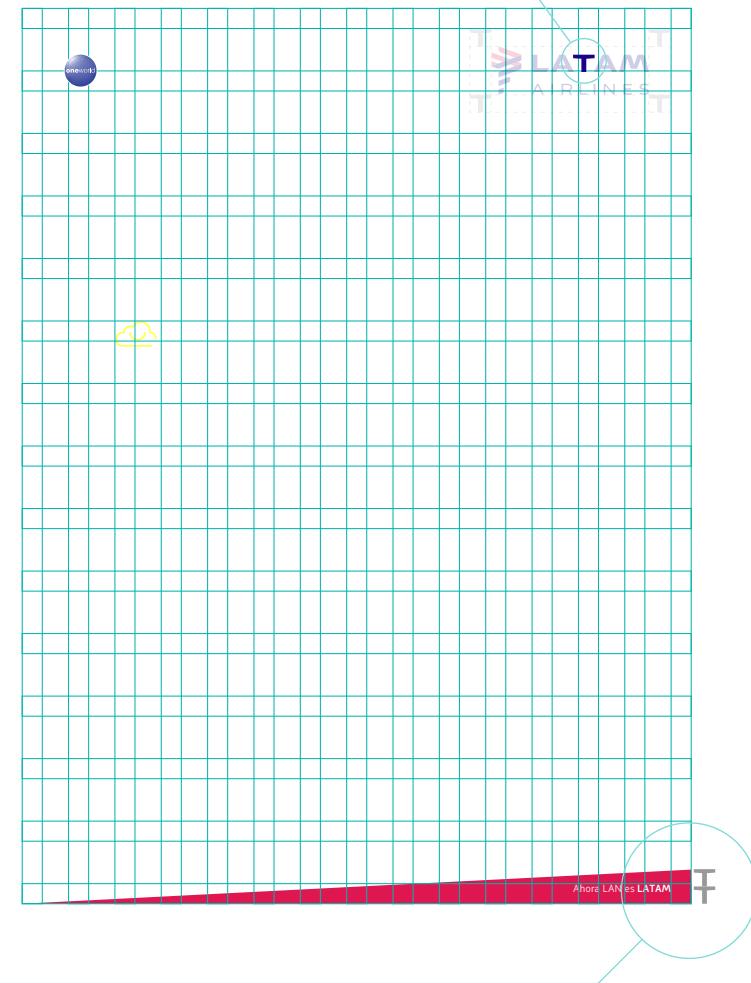

use  $T \times 2$  to find out the height of the footer

The text should be 50% of the height of the "T" and be centered horizontally in the footer

Use the "T" height as a proportion of reference

### Position of the flying box

We must take care that the flying box does not get near the footer. The minimum distance between them is 10x the height of the "T"

These rules are for the period mark of transition when you have the need to mention that LAN and TAM is now LATAM. This is an example of how to apply the transition to a single page
